

# TechTalk

## Supersized Data

### Program (Preliminary)

#### Molecular Pathology, small tissue, big data, huge consequences

Tom van Wezel (LUMC)

#### From Local to Cloud-based Infrastructures for Genome Analyses and Visualizations

Walter Pirovano (Baseclear)

#### Visualising DNA Sequence Variance

Jacob Boon (We are landscape)

#### Efficient sharing of genetic data

Peter Taschner (Generade)

#### Privacy and Big Data

Helena Ursic (Center for Law and Digital Technologies)

#### Common Roles of Big Data in Pharma

Billy Franks (Astellas)

#### Open Science Movie

Barend Mons (LUMC)

#### TBA

Thomas Hankemeier (LACDR Analytical Biosciences)

#### Advanced Bibliometric Methods

Ludo Waltman (CWTS)

#### Followed by drinks

#### When:

Thursday, June 23rd, 14.45

#### Where:

Biopartner building 1  
JH Oortweg 21, Leiden

#### For Whom:

The R&D community of Leiden Bio Science Park, and others interested

#### Sign up here:

<http://bit.ly/1Y2e2zT>

#### More info:

[tdijkmans@lbsp.nl](mailto:tdijkmans@lbsp.nl)

#### Organized by:

Luris, Leiden Bio Science Park,  
Boerhaave Nascholing, Centrum  
Bioscience en Diagnostiek and Generade.
